

# Village of Northfield Electric Department

## NOTICE OF PROPOSED TARIFF CHANGES

On November 16, 2010, the Village of Northfield Electric Department filed revised tariffs with the Vermont Public Service Board (Board) requesting an increase in its retail revenues of 4.65%. The overall increase in costs for the Electric Department is due largely to the increased costs of supplying and distributing energy to the consumer. The proposed retail rate schedule is to be effective on a service-rendered basis beginning January 1, 2011.

To determine the impact on your individual bill, use the proposed rates column and your average monthly consumption. For example, a residential customer using 600 kWh a month would calculate his or her bill as follows:

	<u>Present Rates</u>	<u>Proposed Rates</u>
Customer Charge	\$ 7.70	\$ 8.06
NYPA            100 x .06107	6.11	100 x .06391       6.39
All kWh        500 x .13179	<u>65.90</u>	500 x .13792 <u>68.96</u>
	\$79.71	\$83.41

The Public Service Board has no authority to suspend this rate request. If the Board decides not to open a formal investigation, the rates will take effect January 1, 2011 on a permanent basis. However, if it appears to the Board that the rates may be unreasonable, the Board may order a formal investigation and hearing on the proposed rate changes. Until completion of the formal review by the Board, the increase will be listed as a surcharge on your bill. Any person wishing to comment on the proposed rate change should file his or her views in writing with the Vermont Public Service Board, 112 State Street, Montpelier, Vermont 05620-2701, or via e-mail to [psb.clerk@state.vt.us](mailto:psb.clerk@state.vt.us) by December 15, 2010.

Any interested person may examine the tariff change filing at the office of the Public Service Board or at the Village of Northfield Electric Department office during normal business hours.

<u>Rate Class</u>	<u>Present Rates</u>	<u>Proposed Rates</u>
