

Northfield's Community Connections Kiosk

WHAT: The Northfield Energy Committee (NEC), in partnership with staff and students of the Norwich University School of Art and Architecture, have developed plans for an information center Kiosk to be constructed on Depot Square, with the generous cooperation of Community Bank.

WHY: The Kiosk will provide shelter, seating, and information for townspeople and tourists and provide an overview of the Common. A map showing the location of Northfield businesses, eateries and community attractions, as well as location of trails, parks, events and a timeline of Northfield history, will be featured.

WHEN: We anticipate construction will begin in Fall 2020 with completion to occur in Spring 2021, when NU students are available and weather conditions permit.

HOW: The NEC and Norwich have obtained partial grant funding, and we will be reaching out for further financial support to reach the anticipated budget goal. If you are able to help support this project, please contact Gail Hall (gghall910@gmail.com). Thank you.
