State support that is usually at no cost to the municipality:

- Vermont Hazardous Material (HAZMAT) Response Team (VHMRT)
- Vermont Urban Search and Rescue (USAR, VT-TF1)
- Vermont State Police Special Teams
- Swiftwater rescue teams (both local and VT-TF1)
- Regional shelter support
- Subject matter expertise from state government agency or federal response agency

State support and resources the municipality will normally eventually have to pay for:

- Supplies and equipment
- VTrans equipment and personnel
- Vermont National Guard support

The state emergency operations center (SEOC, 800-347-0488) will help coordinate any state support teams or other external resources that local responders may need.

4. Public Information and Warning

During a significant emergency, the emergency operations center (EOC) and incident command posts (ICPs) will coordinate and manage public information, both by producing accurate, timely reports and by tracking what is publicly reported to minimize confusion and help ensure a positive public response.

Vermont Emergency Management (1-800-347-0488) can send VT-Alert messages on behalf of your community if you are unable to send them on your own.

Many communities have individuals who need translation services, are deaf or hard of hearing, or blind or visually impaired. Municipalities may use, at their own expense, statewide translation contracts on the [Buildings and General Services website](#) to meet these needs.

Please consider what those needs may be, and how those needs can be met.

Local VT-Alert managers and managers of other notification systems (if applicable):

Vermont 2-1-1 is a United Ways of Vermont system that provides 24x7x365 information and referral services in cooperation with many state and local government and community-based entities. 2-1-1 collects and maintains a database of local resource information and is available to take calls from the general public to inform and instruct them in relation to emergency events, and to refer them to the appropriate response and recovery resource, if necessary. Dial 211 or (802) 652-4636.

5. Organizations and communities requiring additional coordination

This is the list of organizations that need extra communication and coordination from the local emergency operations center before, during, and after an emergency. This list should include all organizations the town needs to have enhanced communication with, including schools, daycares, nursing homes, organizations serving speakers of languages other than English, organizations serving New Americans, organizations serving unhoused individuals, mobile home parks, dams, facilities in hazardous areas, and communities that may need additional coordination. Individuals that need extra communication and coordination can be accessed through [Citizen Assistance Registration for Emergencies \(CARE\)](#). If necessary, the EOC may contact organizations and facilities, listed below, that serve populations that may be at risk based on the emergency. If there are residents at risk or in danger, the EOC should monitor their status and if required coordinate support for them until their situation stabilizes. Please ensure these contacts have updated EMD contact information.

6. Shelters

During some emergencies, the EOC will monitor or coordinate support for individuals who are displaced. When multiple locations are available, shelters should be selected based on how individuals can access that location during a variety of disasters, how food and other resources can be provided at that location, and which services (food, generator, etc.) are available on site or within close proximity.

Spontaneous sheltering

Determine the approximate number of people who need sheltering.

Call the state EOC or VEM watch officer at 800-347-0488 and request support. This support may be in the form of a regional shelter.

Track the status of residents who need shelter until their situation stabilizes.
